## Gutter Shield

Proven effective in preventing blockages from leaves and debris that cause water corrosion and an environment for unwanted insects to breed, New Zealand Gutter Shield is a robust mesh that comes with a 2 year UV protection warranty. New Zealand Gutter Shield is extra durable for a long life, is simple and easy to install and fits all sized guttering.

### Key Features

- Maintenance free.
- Available in rolls 180mm x 10m.
- Made from 100% recycled high density polyethylene.

### Easy Installation

- Cut the Gutter Shield into lengths to suit.
- Fit Gutter Shield inside the open rolled edge of the guttering and under the roof edge.
- Trim off any excess. Overlap the joins and corners. Cut around clips or spikes. It's that simple!

## Garden Trellis

Available in green, brown and grey, our garden trellis is a durable, long-life mesh that comes with a 2 year UV protection warranty. This is a versatile trellis that is ideal for a wide range of applications including:

- General fencing
- Children's play areas
- Trellis for climbing plants
- Plant protection in the garden
- Protection around large trees

### Key Features

- Maintenance free and quick and easy to install.
- Use timber posts for extra support where needed.
- Available in rolls 950mm x 5m or 950mm x 30m both in 50mm or 16mm mesh size.
- Made from 100% recycled high density polyethylene.

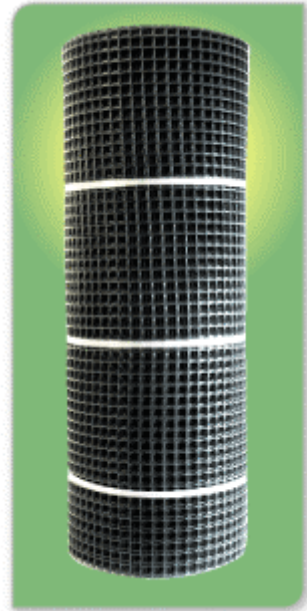

## Ground Stability Mesh

Designed for commercial or domestic applications, ground stability mesh prevents soil erosion and helps to promote plantation growth. A durable grade mesh available in a wide variety of mesh profiles to suit an extensive range of applications.

### Key Features

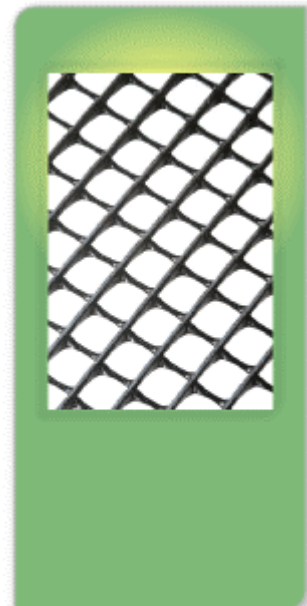

- Available in rolls 2m x 30m.
- Made from 100% recycled high density polyethylene.

## Pipe Shield

Constructed from heavy duty, 100% recycled high density polyethylene, Pipe Shield provides protection for underground services, reducing the risks associated with operators breaking vital connections. Laid above services, Pipe Shield's unique size and profile impedes digging activity and warns operators that services are below.

Available in rolls 2m x 30m.

## Tree Shield

Designed as a durable, long-life solution to provide increased protection to newly planted trees and shrubs from grazing animals. Tree Shield is a complete netting tube that eliminates the need for expensive fencing, is maintenance free and quick and easy to use.

### Key Features

- Available in a range of lengths, 1.1m (sheep size) <sup>L</sup> and 1.7m (cattle size). Must be stapled at the top <sup>L</sup> and bottom ends.
- Made from 100% recycled high density polyethylene.
- Tree Shield comes with a 2 year UV protection warranty.

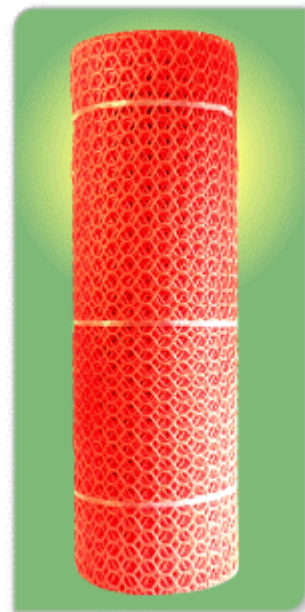

## Safety Mesh

A heavy duty mesh designed specifically for construction and building site safety fencing and for sports or public events where effective, economical safety control is required.

### Key Features

- Highly visible in bright orange.
- Available in rolls 1050mm x 30m.
- Made from high density polyethylene.

Visible Mesh is a lighter gauge of Safety Mesh, designed for applications that require a visual warning without the need to provide heavy duty safety. Available in rolls 950mm x 30m.

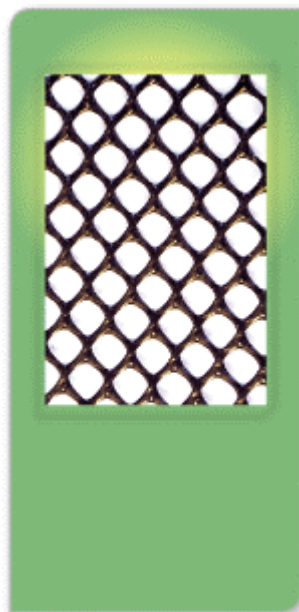

## Oyster Mesh

Designed for use in the aquaculture industry to promote the growing and easy harvesting of oysters and mussels. Made from 100% recycled high density polyethylene, extra strength Oyster Mesh is available in a wide range of dimensions to suit individual applications.

### Key Features

- Protected against Ultra-Violet light to provide long-life. Oyster Mesh is easy care and no maintenance.
- Made from 100% recycled high density polyethylene.
- Available in rolls 1m x 30m or 2m x 30m.
